

Brenda Watson ND, CNC  
Founder & President  
of Advanced Naturals

*We are becoming a nation of health experts and that's a good thing! The media's educational focus on health, and especially on Omega-3 fatty acids for heart, brain, digestive, and joint concerns, has really ramped up over the past few years. It's important as health care practitioners that we recommend the very best Omega-3 fish oils to our patients, and what better time to start than during February, American Heart Month?*

## Ultra-Concentrated Omega Oil Supplements

### Therapeutic-Strength Omega-3 Support SUPER CRITICAL OMEGA

- 1,025 mg Omega-3 per gel (higher than any other fish oil)
- Super-concentrated; 95% total Omega concentration

- Supports heart, eye and kidney health\*
- Promotes a positive mood\*

## IT'S HEART HEALTH MONTH Stock up on High-Potency, Omega-Rich Oils

You wouldn't settle for a fish oil softgel that skimps on Omega-3 EFA's in favor of "filler" oils, and your patients won't either. Check the supplement facts to compare the Omega-3 content and you'll see that most fish oils on the market simply don't concentrate their formulas the way Advanced Naturals does.

**Super Critical Omega** triples the typical fish oil softgel potency to 1,025 mg of Omega-3 per fish gel. That's more than the American Heart Association's recommended Omega-3 intake in a single, no-fuss, no-fishy-taste daily serving.<sup>†</sup> And because Super Critical Omega is backed by the industry's highest 5-star IFOS safety rating, you can assure your patients they are getting only the Omega-3 health benefits with no heavy metals, PCB's, or contaminants to worry about.

### What Sets Super Critical Omega Apart from Competitors:

- ✓ Pharmaceutical strength omega oil
- ✓ Compare to Prescription-Only Lovaza®
- ✓ Enteric-coating for targeted delivery
- ✓ Lipase for better digestion of oils
- ✓ 1,000 IU Vitamin D3
- ✓ Highest purity rating in the world with IFOS
