- 14 Probiotic Strain BifidoMax Blend
- Helps Relieve Digestive Distress\*
- Relieves Occasional IBS, Diarrhea & Constipation\*
- Replenishes Bifidobacteria that Decline with Age\*
- Delayed Release Vegetable Capsules
- Potency Guaranteed until Expiration

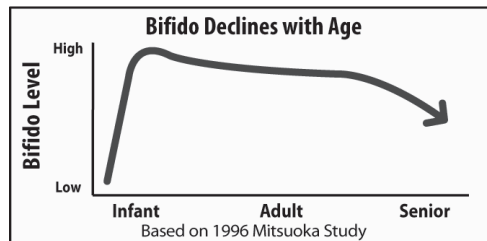

### High Bifido for Optimal Benefit

**Ultimate FloraMax Critical Colon 80 Billion** is a maximum-strength acute digestive care probiotic formulated to help replenish the numbers of beneficial Bifidobacteria in the colon and support digestive health and regularity.\* Each capsule contains 80 billion live probiotic cultures from 14 health-promoting probiotic strains, including 52 billion Bifidobacteria to promote optimal digestive and immune function.\*

### The Critical Importance of Bifidobacteria

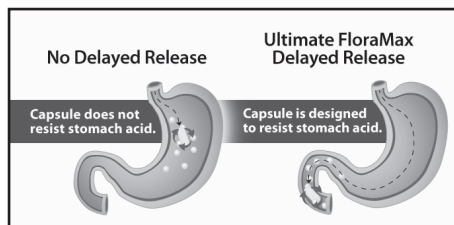

The human digestive tract is home to more than 70 percent of the body's natural immune defenses, with Bifidobacteria being the most prevalent beneficial bacteria in the large intestine, or colon.

As we age, our levels of Bifidobacteria decline, which may result in an increase in digestive disorders and a breakdown in overall intestinal health and immunity. Supplementation with high levels of Bifidobacteria has been shown to improve symptoms of bowel disorders such as IBS and Crohn's disease, as well as diarrhea (including antibiotic-associated diarrhea), constipation, indigestion, gas and bloating.\*

### Delayed Release Capsules

Ultimate FloraMax vegetable capsules are designed to resist stomach acid more than standard capsules and help deliver more live probiotics directly to the intestines.

Ultimate FloraMax Critical Colon 80 Billion was formulated by Brenda Watson, C.N.C., president of Advanced Naturals and the founder of natural healthcare clinics specializing in digestive care.

<b>Supplement Facts</b>
