

FishMax Ultra

Ultra-Concentrated Omega-3 Fish Oil
with Peppermint Oil

- 3X More Omega-3 Absorption*
- Relieves Digestive Discomfort*
- Supports Heart & Joint Health*
- Lipase for Better Digestion of Oils
- Less Burping & 'Repeat'
- Once-Daily Potency

FishMax Ultra is a highly concentrated fish oil supplement containing 650mg of Omega-3 in each enteric-coated softgel. Clinical studies indicate that a diet rich in fish-derived Omega-3 oils provides numerous health benefits for the whole body, including heart health, immunity, healthy skin and joints, and improved mood.

How Does FishMax Ultra Deliver 3X More Omega-3 Absorption?

FishMax Ultra features **Ultragest™** technology, a combination of enteric coating, peppermint oil and lipase. Lipase is an enzyme used by the body to help break down fats and make the fish oils more easily absorbed. Lipase also helps to prevent the fishy aftertaste and 'repeat' that many people experience when supplementing with fish oil.

Peppermint Oil for Enhanced Digestion

Peppermint oil is a powerful natural digestive aid ideal for those with digestive issues. The peppermint oil in FishMax Ultra stimulates the flow of digestive fluids and helps relieve occasional gas, bloating, nausea and indigestion.* Its soothing properties help relax the muscles of the stomach and colon and may help relieve occasional diarrhea, abdominal cramping and flatulence.*

Purity & Potency Guaranteed

The oils in FishMax Ultra are sourced from smaller, wild, cold-water fish. All of our oils are purified and each batch is third-party tested to exceed all published U.S. and international standards for PCBs, GMOs, pesticides, heavy metals, and dioxins.

Available in 45ct or 90ct

Supplement Facts

Serving Size: 1 to 3 Softgels
Servings per Container: 15 to 45

	Amount per softgel	Amount per 3 softgels	%DV**
