

# FloraMed™

## Advanced Probiotic

- 6 Billion Live Probiotic Cultures per Caplet\*
- 10 Beneficial Probiotic Strains\*
- Replenishes Beneficial Bacteria in the Intestines\*
- Supports Overall Digestive Health\*
- Helps Strengthen Immune Defenses\*
- Naturally Promotes Bowel Regularity\*
- High-Bifido for Added Colon Support\*

FloraMED™ advanced high-Bifido probiotic combine the potency of a 6 billion-count supplement with the convenience of room-temperature stable formulation for superior daily support. Each easy-to-swallow caplet combines 10 strains of health-promoting microflora—including Bifidobacteria and Lactobacilli cultures—to promote a balanced intestinal environment and enhance overall digestive and immune health.\*

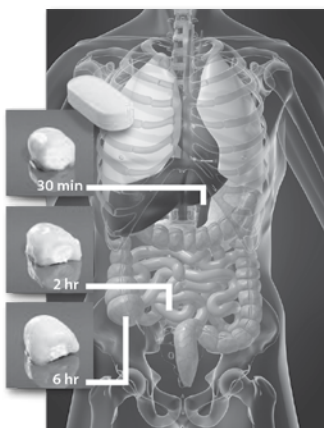

### The Importance of Probiotics

More than 70 percent of the body's immune defenses are located in the intestines, where beneficial bacteria called probiotics work to crowd out harmful microbes that can contribute to poor health. Maintaining a healthy balance of intestinal bacteria is essential for optimal digestion, bowel regularity and overall well being.

BIO-tract® is a patented advanced delivery system proven to help transport more beneficial probiotics directly to the intestines where they are most effective. In the stomach, a protective natural gel forms around each caplet to protect it from harsh gastric acid, in turn helping to deliver more active probiotics to the intestines over an optimal time frame.

### Convenient Shelf-Stable Formulation:

FloraMed probiotics are room-temperature stable and do not require refrigeration, which makes them ideal for travelers and for taking on the go

**BIO-tract tablets protect probiotics from gastric acid.**  
This illustration shows the delayed release of the beneficial probiotics deep into the intestines where they are most effective.

### Supplement Facts

Serving Size: 1 Caplet		Servings per Container: 30	
	Amount per Serving	%DV**
