

BUDDY BEAR™ PRODUCTS

Digestive Care Chewables for Kids

Buddy Bear™ Fiber Chewable Fiber Supplement for Children

- Natural fiber blend
- Supports healthy elimination*
- Supports healthy blood sugar levels*
- Delicious, natural Very Cherry flavor

Buddy Bear™ Fiber is a blend of natural acacia fiber and larch fiber.

Fiber provides numerous health benefits for growing children. Fiber supports healthy bowel movements by absorbing toxins in the digestive tract and helping to “sweep” those toxins from the body.*

It also stimulates the movement of food through the intestines and lubricates the bowel to help ease elimination.*

A natural appetite suppressant, fiber also helps manage your child’s hunger naturally and promotes less snacking throughout the day.* Brenda Watson recommends that children older than 2 years of age consume their age plus 5 in grams of fiber each day (Example: 8 yrs. old + 5 = 13 grams of fiber daily).

Buddy Bear™ Fiber
